

European Regulation on Registration, Evaluation, Authorization and restriction of Chemical Substances, REACH

January 2011

Dear customer:

In response to your inquiry regarding Crydom's activities regarding REACH, we want you to know that:

Crydom is fully aware of the REACH regulation which came into effect on June 1st, 2007. Also, we are aware of the six-month pre-registration phase that ended December 1st, 2008. We have contacted our suppliers of "substances, preparations and articles" to assure that all necessary pre-registration and subsequent registration requirements are complied within the time frame.

Additionally after careful review of the legislation, specifically Regulation (EC) 1907/2006, Title II, Chapter 1, Article 7.1 (a) and (b), it is Crydom's understanding that the products Crydom sells to you constitute non-registrable articles for their intended use.

Also, Crydom products (Crydom and Crouzet brands) **do not contain** any Substances of Very High Concern (SVHC) as defined in Article 57 of Regulation (EC) No. 1907/2006, Title VII, Chapter 1.

Finally Crydom commits to:

- ✓ Meeting current environmental requirements and exceeding them when relevant.
- ✓ Designing products and solutions that respect the environment.
- ✓ Offering its customer products and solutions that are safe, energy efficient and environmentally friendly.

We remain at your disposal for further question you may have.

Bryan Bixby
